### M. D. of Golden Centre

The fifth meeting of council of M. D. Golden Centre, No. 272, was held at N.E. 13 30 5, W. 4th, on Wednesday, October 7.

Members all present. Minutes read and confirmed. Correspondence read and disposed of.

It was decided to withdraw Caveat filed against the 6.41 acres in right of way through the East 1-36 31-4, W. 4th, and to require payment of arrears of taxes of \$18.00 to secure withdrawal of Caveat filed against the 6.06 acres in right of way through the N.W. 36-31-4, W. 4th.

The following resolution is to be presented at the Annual Convention of the Association of Municipal Districts: Whereas the D. of Agriculture has notified the Municipal Districts that cattle purchased under the Live Stock Encouragement Act are exempt from operation of the D. of Agriculture Act until six clear days notice is given, the D. of Agriculture has intention to impound said cattle; therefore be it resolved that the M. D. of Golden Centre No. 272 protest against such action.

Protest was made to the Chief Engineer of the C. N. Railways that the diversion at S.W. 20-31 5, W. 4th is most to abrupt and should be wider and a longer circle.

It was decided to send delegates to the Annual Convention of the Association of Municipal Districts, held in Edmonton on November 25, 26, 27.

Financial Statement to date was read and accepted. The following accounts were paid: A. C. Stewart, survey of divisions and Cemetery, 200.00; Oyen News, notice 70; Central Alta. Sanatorium, maintenance of E. Tattershall, 138.00; United Typewriter Co., repairs on Adding Machine, 12.50; B. Ackem's account, Robinson House, \$25; D. McKay, 11.75; C. Caldwell, 4.00 and J. A. Waterhouse, 9.00; Chapman Agencies, premium on Walper bond, 5.00; Empire Lumber Co., lumber for culverts, 52.60; Cereal Recorder, signage for farms and lotteries, 11.25; Ralph Greene, salary April and Sept., 250.00; office expense, 10.00; telephone tolls, 4.50; express on repairs and supplies, 4.40 and Balliff fee, 6.00; L. C. Michaels, rent, 5.00; McGillivray, Holman and Spankie, solicitor fee, 7.70; Alberta Assn. of Municipal Districts, membership fee, 20.00.

Interview was granted the Agent of the J. and J. Taylor S. Fe Co. but no purchase was made.

Council adjourned until Wednesday November 4, 1925 to meet at N.E. 13-30 5.

Ralph Greene, Sec. Treasurer

### Lieutenant Governor's Time Expires

The second term of Lieutenant Governor Brett of Alberta, expired this week, but he will continue to fill the office until a new appointment is made by the government at Ottawa which will not likely be until after the general elections next week. Dr. Brett has been in office for ten years.

Mr. and Mrs. H. M. Ball, Mrs. H. Hunter, Mrs. Beggs, Mrs. T. G. Scott and Mrs. D. G. Shannon, of Sibbald were Oyen visitors last Thursday.

### Last Few Days For Discount on Current Taxes

Oyen School District, No. 3058

Ratepayers in the above school district are reminded that a discount of 5 per cent will be allowed on all current taxes, paid on or before October 31. Take your dismount and assist in financing the school. No discount allowed after this date.

### Use Your Franchise

It is generally expected that voting in the Dominion Election, to be held tomorrow, will be unusually heavy. The polling station in Oyen, will be in the office of Mr. W. V. Miller, next door to the Oyen News office. This polling station is for voters resident in the village of Oyen and all Town lots 27 Range 4, and all Town lots 28, Range 4, excepting sections 6, 7, 18, 19, 30, and 31, and will be open from the hour of 8 a.m. till 6 p.m.

### All Layne Players Give Excellent Entertainment

A most enjoyable entertainment was provided at Oyen Theatre last Thursday by the All Layne Players, who played a most laughable three act farce comedy, entitled "Hello, Hello!" The play had many catchy lines, was full of humorous situations, and was played with unusual merit by a well balanced cast. The attendance was not large, but those present thoroughly enjoyed the show, and the company should get a good reception on their return visit in the near future in a play called "So This is London."

### Officially Open Sugar Factory

The official opening of Alberta's new million dollar sugar factory at Raymond, south of Lethbridge, took place Friday of this week, with many in attendance including representatives of the provincial government. A special train was operated from Lethbridge for the event, which marks an epoch in the development of the irrigated sections of southern Alberta. The plant expects to handle something like 100,000 tons of beets this season, and has already commenced operations. The crop is an unusually heavy one, although some harvests under adverse weather conditions. Yields ranging anywhere from ten to twenty tons of beets per acre are being realized.

## Sometime! Why not this time?

## Want Trained Men

Thinks Science Most Fruitful Field For Canadian Geniuses

Delivering his annual address at the annual prize giving of Upper Canada College, at Toronto, Principal Grant said:

"I make no apology for putting scholarship in the forefront. Never has Canada more need than today for disciplined intellect in every branch of our national life and the boy who has won a university scholarship has at least the beginnings of intellectual discipline and even of intellectual distinction."

"I again appeal for some kind donor, either to give us outright or at least to start a fund for a new science laboratory. My own view is that along the path of scientific research, already so well trodden by such men as Professor MacLennan and Dr. Manning, rather than along that of literature, lies the most fruitful field for the Canadian genius."

## Revenue From U. S. Tourists

More Than Two Million Automobiles Crossed Into Canada This Year

Tourists from the United States have brought \$150,000,000 revenue to Canada this year, according to estimates of Canadian Government officials. More than 2,000,000 American automobiles, it is estimated, have crossed into Canada through this year. They carried approximately 3,000,000 persons. They are one tourist every four women and child in the Dominion. Every province abroad in the tourist business has received the large influx. Last year 1,375 motor cars from the United States entered Ontario, 143,478 of which stayed from two to six days, 644 from one to two months and the remainder shorter periods.

## GUARD THE BABY AGAINST COLDS

By Keeping Baby's Own Tablets In the House at All Times

To guard the baby against colds, nothing can equal Baby's Own Tablets. These are the only tablets which will keep the little one's stomach and bowels regular. It is a recognized fact that where the stomach and bowels are in good order that colds will not catch. The health of the little one will be good and that of the mother also. Thousands of mothers have become convinced that there is nothing to equal them in banishing constipation and indigestion, breaking up colds and simple fever, expelling worms and making the little one healthy. The thousands who praise Baby's Own Tablets in the house as I know of as a better medicine for little ones to equal them."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Importance Of Nickel Industry

The greatest importance of the nickel industry to Canada is emphasized by an analysis of recent export figures. During the first year, ending March 31, 1925, the total value of its products exported from Canada amounted to more than \$160,000,000 as against \$100,000,000 for 1924, and \$85,000,000 for 1923.

An Oil of Merit—Dr. Thomas' Eucalypti Oil is not a jumble of medicinal substances thrown together and pushed by advertisement. But the result of the careful investigation of the healing qualities of eucalypti oils as applied to the human body. It is a rare preparation and it won and kept its position as the only oil which will carry conviction to any who doubt its power to repel and heal.

**Saskatchewan Wheat Pool**  
When the official state that approximately 70 per cent of the wheat export, in addition to a substantial portion of the total export, is destined to coarse grains, it is underlined that the Saskatchewan pool. The pool has passed its objective of nine million acres with 37,000 contracts.

4-2226-2228-2230-2232-2234-2236-2238-2240-2242-2244-2246-2248-2250-2252-2254-2256-2258-2260-2262-2264-2266-2268-2270-2272-2274-2276-2278-2280-2282-2284-2286-2288-2290-2292-2294-2296-2298-2300-2302-2304-2306-2308-2310-2312-2314-2316-2318-2320-2322-2324-2326-2328-2330-2332-2334-2336-2338-2340-2342-2344-2346-2348-2350-2352-2354-2356-2358-2360-2362-2364-2366-2368-2370-2372-2374-2376-2378-2380-2382-2384-2386-2388-2390-2392-2394-2396-2398-2400-2402-2404-2406-2408-2410-2412-2414-2416-2418-2420-2422-2424-2426-2428-2430-2432-2434-2436-2438-2440-2442-2444-2446-2448-2450-2452-2454-2456-2458-2460-2462-2464-2466-2468-2470-2472-2474-2476-2478-2480-2482-2484-2486-2488-2490-2492-2494-2496-2498-2500-2502-2504-2506-2508-2510-2512-2514-2516-2518-2520-2522-2524-2526-2528-2530-2532-2534-2536-2538-2540-2542-2544-2546-2548-2550-2552-2554-2556-2558-2560-2562-2564-2566-2568-2570-2572-2574-2576-2578-2580-2582-2584-2586-2588-2590-2592-2594-2596-2598-2600-2602-2604-2606-2608-2610-2612-2614-2616-2618-2620-2622-2624-2626-2628-2630-2632-2634-2636-2638-2640-2642-2644-2646-2648-2650-2652-2654-2656-2658-2660-2662-2664-2666-2668-2670-2672-2674-2676-2678-2680-2682-2684-2686-2688-2690-2692-2694-2696-2698-2700-2702-2704-2706-2708-2710-2712-2714-2716-2718-2720-2722-2724-2726-2728-2730-2732-2734-2736-2738-2740-2742-2744-2746-2748-2750-2752-2754-2756-2758-2760-2762-2764-2766-2768-2770-2772-2774-2776-2778-2780-2782-2784-2786-2788-2790-2792-2794-2796-2798-2800-2802-2804-2806-2808-2810-2812-2814-2816-2818-2820-2822-2824-2826-2828-2830-2832-2834-2836-2838-2840-2842-2844-2846-2848-2850-2852-2854-2856-2858-2860-2862-2864-2866-2868-2870-2872-2874-2876-2878-2880-2882-2884-2886-2888-2890-2892-2894-2896-2898-2900-2902-2904-2906-2908-2910-2912-2914-2916-2918-2920-2922-2924-2926-2928-2930-2932-2934-2936-2938-2940-2942-2944-2946-2948-2950-2952-2954-2956-2958-2960-2962-2964-2966-2968-2970-2972-2974-2976-2978-2980-2982-2984-2986-2988-2990-2992-2994-2996-2998-3000-3002-3004-3006-3008-3010-3012-3014-3016-3018-3020-3022-3024-3026-3028-3030-3032-3034-3036-3038-3040-3042-3044-3046-3048-3050-3052-3054-3056-3058-3060-3062-3064-3066-3068-3070-3072-3074-3076-3078-3080-3082-3084-3086-3088-3090-3092-3094-3096-3098-3100-3102-3104-3106-3108-3110-3112-3114-3116-3118-3120-3122-3124-3126-3128-3130-3132-3134-3136-3138-3140-3142-3144-3146-3148-3150-3152-3154-3156-3158-3160-3162-3164-3166-3168-3170-3172-3174-3176-3178-3180-3182-3184-3186-3188-3190-3192-3194-3196-3198-3200-3202-3204-3206-3208-3210-3212-3214-3216-3218-3220-3222-3224-3226-3228-3230-3232-3234-3236-3238-3240-3242-3244-3246-3248-3250-3252-3254-3256-3258-3260-3262-3264-3266-3268-3270-3272-3274-3276-3278-3280-3282-3284-3286-3288-3290-3292-3294-3296-3298-3300-3302-3304-3306-3308-3310-3312-3314-3316-3318-3320-3322-3324-3326-3328-3330-3332-3334-3336-3338-3340-3342-3344-3346-3348-3350-3352-3354-3356-3358-3360-3362-3364-3366-3368-3370-3372-3374-3376-3378-3380-3382-3384-3386-3388-3390-3392-3394-3396-3398-3400-3402-3404-3406-3408-3410-3412-3414-3416-3418-3420-3422-3424-3426-3428-3430-3432-3434-3436-3438-3440-3442-3444-3446-3448-3450-3452-3454-3456-3458-3460-3462-3464-3466-3468-3470-3472-3474-3476-3478-3480-3482-3484-3486-3488-3490-3492-3494-3496-3498-3500-3502-3504-3506-3508-3510-3512-3514-3516-3518-3520-3522-3524-3526-3528-3530-3532-3534-3536-3538-3540-3542-3544-3546-3548-3550-3552-3554-3556-3558-3560-3562-3564-3566-3568-3570-3572-3574-3576-3578-3580-3582-3584-3586-3588-3590-3592-3594-3596-3598-3600-3602-3604-3606-3608-3610-3612-3614-3616-3618-3620-3622-3624-3626-3628-3630-3632-3634-3636-3638-3640-3642-3644-3646-3648-3650-3652-3654-3656-3658-3660-3662-3664-3666-3668-3670-3672-3674-3676-3678-3680-3682-3684-3686-3688-3690-3692-3694-3696-3698-3700-3702-3704-3706-3708-3710-3712-3714-3716-3718-3720-3722-3724-3726-3728-3730-3732-3734-3736-3738-3740-3742-3744-3746-3748-3750-3752-3754-3756-3758-3760-3762-3764-3766-3768-3770-3772-3774-3776-3778-3780-3782-3784-3786-3788-3790-3792-3794-3796-3798-3800-3802-3804-3806-3808-3810-3812-3814-3816-3818-3820-3822-3824-3826-3828-3830-3832-3834-3836-3838-3840-3842-3844-3846-3848-3850-3852-3854-3856-3858-3860-3862-3864-3866-3868-3870-3872-3874-3876-3878-3880-3882-3884-3886-3888-3890-3892-3894-3896-3898-3900-3902-3904-3906-3908-3910-3912-3914-3916-3918-3920-3922-3924-3926-3928-3930-3932-3934-3936-3938-3940-3942-3944-3946-3948-3950-3952-3954-3956-3958-3960-3962-3964-3966-3968-3970-3972-3974-3976-3978-3980-3982-3984-3986-3988-3990-3992-3994-3996-3998-4000-4002-4004-4006-4008-4010-4012-4014-4016-4018-4020-4022-4024-4026-4028-4030-4032-4034-4036-4038-4040-4042-4044-4046-4048-4050-4052-4054-4056-4058-4060-4062-4064-4066-4068-4070-4072-4074-4076-4078-4080-4082-4084-4086-4088-4090-4092-4094-4096-4098-4100-4102-4104-4106-4108-4110-4112-4114-4116-4118-4120-4122-4124-4126-4128-4130-4132-4134-4136-4138-4140-4142-4144-4146-4148-4150-4152-4154-4156-4158-4160-4162-4164-4166-4168-4170-4172-4174-4176-4178-4180-4182-4184-4186-4188-4190-4192-4194-4196-4198-4200-4202-4204-4206-4208-4210-4212-4214-4216-4218-4220-4222-4224-4226-4228-4230-4232-4234-4236-4238-4240-4242-4244-4246-4248-4250-4252-4254-4256-4258-4260-4262-4264-4266-4268-4270-4272-4274-4276-4278-4280-4282-4284-4286-4288-4290-4292-4294-4296-4298-4300-4302-4304-4306-4308-4310-4312-4314-4316-4318-4320-4322-4324-4326-4328-4330-4332-4334-4336-4338-4340-4342-4344-4346-4348-4350-4352-4354-4356-4358-4360-4362-4364-4366-4368-4370-4372-4374-4376-4378-4380-4382-4384-4386-4388-4390-4392-4394-4396-4398-4400-4402-4404-4406-4408-4410-4412-4414-4416-4418-4420-4422-4424-4426-4428-4430-4432-4434-4436-4438-4440-4442-4444-4446-4448-4450-4452-4454-4456-4458-4460-4462-4464-4466-4468-4470-4472-4474-4476-4478-4480-4482-4484-4486-4488-4490-4492-4494-4496-4498-4500-4502-4504-4506-4508-4510-4512-4514-4516-4518-4520-4522-4524-4526-4528-4530-4532

## RIFF OPERATIONS AGAINST ENEMY ARE EFFICIENT

London.—In spite of the recent success of the French and Spanish forces in Morocco, news received at Gibraltar seems to show that there are still in existence which do not appear in the official communications and that even now the position of the Spaniards in Melilla and the French on the eastern front may not be altogether rosy.

Last Sunday, near the junction of the Franco-Spanish forces on the eastern front, the French are said to have lost four complete batteries through a determined Rifian attack, and but for the presence of a Spanish air squadron, the situation would have become serious. With the help of the Spanish air force, however, three guns were recovered.

It is reported that on the same night a Spanish outpost in the Rif, Alhucemas, was attacked by Rifians, dressed in the uniforms of the Spanish native troops. The points of the posts were holding a conference and were completely surprised.

The whole situation of the Rif is reported to have been killed, with the exception of the headquarters in command. The Spaniards around Alhucemas are officially reported to 1,000. The Rifians are believed to be waiting the reasonable windstorm which will prevent any further advance and raise before launching an attack on Alhucemas.

## Remove Bullet From Heart Of Soldier

Wounded in 1915 Man Has Been Discharged As Cured

London.—Mike Kelly went to war and was wounded. He came back with a bullet in his body and a pain in his heart.

Now, ten years after the bullet ripped into him, it has been removed from his heart. Mike has just been discharged from Queen Mary's Hospital, his case record reading "completely recovered."

Kelly was shot in the lung at Borneo, in the spring of 1915. Surgeons probed for the bullet but could not find it. The patient recovered and returned to the front. He was again wounded. He is now a healthy man.

## Great Reduction In Western Turkey Crop

Production Will Be Considerably Less Than Last Year

Ottawa.—The turkey crop throughout Western Canada this year will be short one, according to information which has been received by the Dominion livestock branch at Ottawa. The six representative provinces of the section. A prolonged cold and wet spell through the latter part of May and June played havoc with the hatching and raising in Manitoba, decreasing not only the number of birds on the farms, but also their quality. It is estimated that in Alberta there will be a reduction of probably 25 per cent. from last year's crop.

## New Arrival Shown Enterprise

## Adverse Comment On Photograph Of Prince

Fancy Dress Picture Destroys Dignity Of His Position Says London Paper

London.—Adverse comment is appearing in the newspapers with regard to the recent photograph of the Prince of Wales dressed as a dandy for appearance in amateur theatricals which was taken about the H.M.S. Repulse on his way home from his trip to West and South Africa, and South America, and it is presumed this photograph has been circulated the world over. The photograph itself is harmless, even innocuous, the Prince's familiar features being scarcely recognizable. He is shown standing with a couple of male companions who also are in fancy dress.

The Manchester Guardian says: "The American press, as well as the English press, had dwelt on his appearance as an Ambassador of the Empire, and it was felt in England that a new atmosphere suitable to the dignity and a year of his Royal Highness had come to the Prince and had been diffused throughout the world. Then comes this ridiculous, unnecessary, unfortunate photograph which goes to the world at the same time as the serious estimates of his services and character."

Predicts Radio Development

May See Newspapers As Complete Pictures Is Forecast

Chicago.—Radio has a future in which entire newspapers will be flashed as complete pictures. International broadcasting will be complete. Information, instructions will penetrate to the remotest corners of the world and state will be chained a captive.

—Her Von Hoesch, German ambassador to France, who has been in an address delivered before the conference on education and industry at the University of Chicago.

## Captain Of Liner Is Shot

Capt. Clews of C.P.R. Steamship Melita Is Killed At Antwerp

Antwerp, Belgium.—Captain A. H. Clews, commander of the Canadian Pacific liner Melita, was shot and killed in his cabin on the Melita while asleep. Thomas Towers, first officer, was arrested, charged with the murder. Towers is a British subject. He is thought to be one mentally irresponsible. Captain Clews was a nephew of the late Henry Clews, of Lombard Street and Wall Street, who died in 1922.

Two other officers of the Melita were seriously wounded by the captain's murderer and are in an Antwerp hospital. They are David K. Gilmore, of Glasgow, assistant chief engineer, and John Holliday, of Bristol, England, second officer.

The account of the tragedy gathered by the Antwerp police is that Towers went to the captain's cabin at 2 o'clock in the morning. A pistol shot was heard and the captain was found dead. A bullet wound in his head. The police say that Towers then entered Gilmore's cabin and shot the engineer in the face.

The police are bringing brought other officers to the scene, and in a struggle with Towers the second engineer was killed in the lungs.

Other members of the crew eventually overpowered Towers and disarmed him.

## GREECE DEMANDS HEAVY PAYMENT FROM BULGARIA

Athens.—Greece has demanded an indemnity of 5,000,000 francs from Bulgaria for the Greek soldiers who were killed in the frontier fighting. The demand is set forth, as an apology and punishment of the responsible Bulgarian government. The demand is in an ultimatum sent to the Bulgarian government.

Premier Panagiotis declared that the Greek troops have not entered Bulgarian territory but have been stationed along the frontier. He threatened with a drastic measure. He added, was left to the general commanding the Third Army Corps with headquarters at Salonika.

The shooting of frontier guards near borderlines, on the Greek-Bulgarian border, has caused the demand.

## Zionist Student Killed Martyr

Dionis Charge of Attempted Assassination of Polish President

Warsaw, Poland.—Poland appears to be threatened with a drastic measure arising out of the attempted assassination of President Wojciechowski by a Zionist student, Stanislaw Stragier, who was standing after the bomb was thrown, was arrested by the police. The student is a member of the Polish M.P. Pasternak. Stragier vehemently protested his innocence from the beginning, declaring that the bomb was thrown for self preservation.

The Jewish population is greatly alarmed. The police are searching for Stragier as a martyr and is doing all it can for his defence.

## Nominated For Peace Prize

Movement in Berlin to Award Nobel Prize to Streamann

Berlin.—A movement to have the Nobel peace prize awarded to Gustav Stresemann, the German foreign minister, has been started by the National Zeitung.

The proposal has as its motive the desire for international recognition of the minister's efforts and achievement. The proposal is for peace and the necessity of counteracting existing international anti-German propaganda by German international propaganda.

Alluding to Dr. Stresemann's qualifications for the Nobel prize, the paper declares: "There never was a statesman or other person so active in promoting universal brotherhood and a new era of post-war peace."

Wins Gold Medal For Butler

Regina.—Winning a gold medal for butter in the unassisted class, Chris Hansen, employee of the Saskatchewan Creameries, Regina, defeated competitors from New Zealand, Australia and the United Kingdom in a competition held by the colonial department of the London dairy, for butter making.

To Make Dry Thanksgiving

New York.—Prohibition authorities have a list of salaried and restaurant where champagne and other liquors have been flowing freely. A dry Thanksgiving day is expected.

## OUR CURRENCY AT HIGH LEVEL ON Y. EXCHANGE

New York.—The heavy transactions of recent date in Canadian wheat and the increased demand from tourists for Dominion's currency are given by officials here as reasons for the high premium of 5-12 of one per cent. quoted on the local exchange and which is not reflected in the Canadian dollar, and which is nevertheless gold shipments across the border.

The bank of Montreal in New York is understood to have shipped about \$5,000,000 in gold during the last week and the New York Trust Company is transferring about \$2,000,000 of the metal to Montreal.

## Object To Use Of Title

Wife of Former Emperor of Germany Offends Republicans

Stuttgart, Germany.—Efforts by the Reichstag to begin proceedings against Princess Hermine, wife of former Emperor William, for alleged unlawfully usurping the title attempt to add a criminal complaint to the penal code, was passed at Nuremberg, but the court refused to proceed. The public prosecutor would not take any action.

It was charged that Hermine designated herself as "wife of Emperor William II, former Emperor." It was also alleged that she was registered in the Reichstag as "the wife of Emperor William II, former Emperor." A local photographer issued pictures of her with the words, "Kaiserin Hermine, in Wilhelm, 1925," on them.

## Western Sugar Beet Refinery

Alberta Sugar Product Is Now Placed On The Market

Lethbridge, Alberta.—The first bag of sugar from the new factory of the Canadian Sugar Refineries Limited, located at Lethbridge, Alberta, has been harvested, operations have been delayed owing to wet weather. There are 200 men working at the factory while 500 are busy digging, topping and hauling the sugar beets.

The factory has been in operation since a keen demand for men throughout southern Alberta, and will be another 100 men. Best are averaging heavier than expected, some going 20 tons to the acre. The average yield is about 12 tons to the acre. The sugar content is 18, which is 10 per cent. higher than in most United States beet growing districts.

## National Economic Conference At Winnipeg

Move to Invite Delegates to Make Tour of the West

Edmonton.—Council of the Edmonton board of trade has decided to take the initiative in a movement to interest western boards of trade in having delegates to the National Economic Conference make a tour of Canada from Winnipeg to the Pacific coast. The economic conference is to be held in Winnipeg, November 18.

It is expected that the attendance will include foreign political economists from all parts of the Dominion.

## New Race Discovers

London.—Prof. B. N. Gorodkovskaya has found a new race of the human family, the River Plate, Siberia. He says "there are five elements containing more than 600 people. They are: 1. The River Plate, 2. Siberia, 3. The River Plate, 4. Siberia, 5. The River Plate, 6. Siberia, 7. The River Plate, 8. Siberia, 9. The River Plate, 10. Siberia, 11. The River Plate, 12. Siberia, 13. The River Plate, 14. Siberia, 15. The River Plate, 16. Siberia, 17. The River Plate, 18. Siberia, 19. The River Plate, 20. Siberia, 21. The River Plate, 22. Siberia, 23. The River Plate, 24. Siberia, 25. The River Plate, 26. Siberia, 27. The River Plate, 28. Siberia, 29. The River Plate, 30. Siberia, 31. The River Plate, 32. Siberia, 33. The River Plate, 34. Siberia, 35. The River Plate, 36. Siberia, 37. The River Plate, 38. Siberia, 39. The River Plate, 40. Siberia, 41. The River Plate, 42. Siberia, 43. The River Plate, 44. Siberia, 45. The River Plate, 46. Siberia, 47. The River Plate, 48. Siberia, 49. The River Plate, 50. Siberia, 51. The River Plate, 52. Siberia, 53. The River Plate, 54. Siberia, 55. The River Plate, 56. Siberia, 57. ## Canada's Natural Resources Harvest

Canada a Good Country to Live In All the Year

The natural resource intelligence service of the department of the interior at Ottawa, says:

It is interesting to examine the literature that is being circulated by southern countries, and noting what they have to offer to prospective visitors to their districts. And then to give thought to what Canada has to offer to her people. From the south we are told that there is no bathing, golf, tennis and other summer sports—just what Canada has been indulging in for the past six months. They have no change to offer to the active and energetic red-blooded Canadian. The south may appeal to the invalid, or to the person who has passed the prime of life and requires a warmer climate, but Canada has her own climate. Who would compare the pleasures of sailing, of hockey, of skating, tobogganing, snowshoeing, or of the long tramp on a keen frosty day with the snow sparkling in the sunlight with the language or hardness induced by the warm climate of the south? Even in her selection of the most Canada favors those of the more northerly countries of Europe owing to their greater energy and activity.

Canada's winters are not too severe, and this is becoming more generally recognized. Her people are inclined to realize that the kindly weather supplied by the heat of summer, they are able to include in an entirely different range of outdoor sports, thus broadening their experience, and with the passing of winter they can look forward to their summer again. There are many countries, but there is only one Canada, and Canada is a good country to live in all the year round.

## A Storehouse of Oxygen

Every Fish Can Remain Motionless in Water Without Breathing

A fish is much more than the water and yet it can remain quiet in the water for a long time without breathing, and can rise to the surface rapidly. Why is this? Because inside its body is a sac filled with air. It is a storehouse of oxygen. The air is lighter than the water, so that air-filled bag helps to keep the fish afloat. Not all fishes have air sacs, because all do not need them. Fishes that spend much time in the mud or on the sands at the bottom of the sea, like haddock and some eels, do not have air-bladders. But the catfish, salmon and codfish have an air-bladder. In some fishes the air-bladder opens into the food tube, in others it does not. This, in fact, gets oxygen from the blood vessels which pass into its walls. The fish takes its oxygen through its gills. The catfish, when through the mouth and forced out over the gills, which you can see as they are lighter than the water, so that air-filled bag helps to keep the fish afloat. Not all fishes have air sacs, because all do not need them. Fishes that spend much time in the mud or on the sands at the bottom of the sea, like haddock and some eels, do not have air-bladders. But the catfish, salmon and codfish have an air-bladder. In some fishes the air-bladder opens into the food tube, in others it does not. This, in fact, gets oxygen from the blood vessels which pass into its walls. The fish takes its oxygen through its gills. The catfish, when through the mouth and forced out over the gills, which you can see as they are lighter than the water, so that air-filled bag helps to keep the fish afloat.

## Gas Masks For Army Animals

Protector Against This Means of Warfare Has Been Designed

Although the use of poison gas in warfare may be outlawed, the United States army will be prepared to protect its carrier pigeons, horses, mules, dogs and other animals from the fumes should occasion arise, for special masks have been devised to shield beasts and birds. In the service, the protector for horses and mules consists of a cheese-clash bag which covers the nostrils and upper jaw only, for they breathe only through the nose so that it is not necessary to cover the mouth. Their eyes need no protection, as the gas they have no fear of. The dog mask is similar, but covers both eyes and lower jaw. The pigeon will wear no protector while in flight, but will be guarded from gas by a special shield entirely covering their respiratory organs—Popular Mechanics.

## Weapons Criminals Use

Criminals of different nationalities use different weapons for their work. The English seems to prefer small hand-to-hand. In Paris the Apache uses a knife or revolver. The desperado of Italy prefers the alto, the Spaniard the alto and knife, and Americans the revolver.

## Fur Farming in B. C.

In the new company incorporated in British Columbia recently were no less than three fur farms. There are several fur and mink farms now operating and several under process of organization.

Children in the Irish primary schools are required to study the Irish language.

W. N. C. 1919

## Curious Building To Be Demolished

Walls of House in England Decorated With Human Bones

The postmaster-general, having sanctioned the erection of a new post office at Shopperton-on-Thames, Middlesex, one of the most curious, if not the most curious, of buildings in the country, will pass away by the demolition of the existing premises. The post office is kept by C. C. Newman, who also keeps a general shop and lives there. The house part is very odd, and internally has a very quaint appearance, with its low pitched ceiling supported by the old oak beams, and almost every room having a different floor level. But the exterior of the house is the strangest part of it, for the wall facing the street, immediately below the roof, is decorated with scores of human bones. The house is probably 400 years old, and tradition has it that the bones, which are still firmly set in the wall, were placed there when it was built. Where the bones came is a mystery, but legend has it that they were dug up near the River Thames, close by at the spot where it is supposed John Caesar crossed with his host. Some 20 years ago, when Mr. Newman's father took over the premises, the lower part of the house was shatteringly decorated with human bones, and a window was framed with them. These, however, were destroyed during alterations.

## Can Never Pay Fine

Would Let English Captain Over Two Thousand Years

It is understood that Captain Cecil Herbert Atfield, who has been in Britain Prison, England, 15 months in connection with the gas poisoning case of last year, will be released on or about October 12. He was fined \$12,000 for exporting guns without a license—three times the value of the smuggled goods—and he would have to pay the money in full or be sent to prison.

It was stated that the guns, which were transhipped in midweek, were for Russia or a state on the Russian frontier.

To pay the fine by devoting his entire earnings of \$12.5 a week to that end he would need to live to more than double the age of Methuselah—to die, say, 2,005 years.

## King George Reads Bible Daily

"King George has had it. He knows that he reads a chapter of the Bible every day of his life," says Admiral A. B. Emdin said in a speech at a "Bible and Empire" demonstration held at Westminster under the auspices of the World Evangelist Alliance.

Admiral Emdin's speech was a commendation of Bolshevism on account of his rejection of the Bible.

## Filling Orders For Tree Seeds

Domestic Forestry Branch Supplying Britain, Europe and New Zealand

A large order was received lately by the Dominion forestry branch for tree seeds to be used by the British forestry service.

In addition orders from New Zealand, and many parts of Europe are being filled. The seeds will be gathered from localities where conditions are suitable to use the requirements of the orders and they will be cleaned and prepared at the plants of the forestry branch at New Westminster and Rocky Mountain House. The forestry branch office in Calgary is now making arrangements to gather the seed, but it is not expected that all the orders will be filled this year, owing to the scarcity of seed. The last three years have been marked with poor seed crops.

British want 7,000 pounds of Douglas fir seed (cost, \$250,000), 2,000 pounds of Sitka spruce (Queen Charlotte Island); 500 pounds of Douglas fir (British variety); 200 pounds of Lodgepole pine (Alberta).

Britain made its first order for tree seed in Canada in 1921 and the order was for 100,000 pounds of Douglas fir, which speaks for the success of the Canadian tree seed in British reforestation work.

There are small orders from a number of European countries, particularly France.

## Canadians Coming Back

Statistics Show Hundreds Are Returning From United States

The following statement, in regard to the return of Canadians from the United States, has been issued by the department of immigration.

"Seven hundred and thirty-three Canadian citizens have lived in the United States more than six months returned to Canada in the first nine days of October to make their permanent home here, according to statistics compiled by the department of immigration and colonization. In the same period, 479 immigrants entered Canada from the United States and the entry of tourists and other non-immigrants reached a total of 27,552."

## New High Yielding Out

The department of agriculture's experimental station at New York state has developed several new high yielding varieties for cultivation in New York. It was announced, six varieties have been tested on New York farms for four years, showing an average yield of 50 bushels to the acre, against an average yield of present use varieties of 21.9 bushels to the acre.

## Saving Requires Will Power

People With Small Income Can Always Save Something

One frequently hears those lamenting that they cannot save money because their income is too limited.

A man earning \$10,000 a year may say that with apparently honest means he cannot save money. Another man earning \$1,000 a year may say the same thing with the same honesty of feeling. Ask the \$1,000 a year man if he could save any money on \$10,000 a year and he undoubtedly would say, "Yes."

But the chances are he would not. It has been proved many times that those who are unwilling to make the sacrifices necessary to save on limited incomes are just as unwilling to make sacrifices when their incomes are increased.

Saving money is not a matter of income. It is a matter of will power. Most men who have succeeded have done so at great odds.

Saving money on a limited income does require skill. But because of this the savings take on additional importance. It is not the amount of money that counts in the long run; it is the amount of character necessary to provide the savings.

Do not be misled by the excuse that you cannot save money because you do not earn enough. If your income is limited, your savings will be small, but they will grow in time and will bring all the greater rewards because of the added sacrifice they have cost.

—By R. W. STRAIN, President American Society for Thrift.

## New Citizens For Canada

More Settlers Have Arrived For Ontario and Alberta

Canada is still the land of opportunity and a country where industrious men may make good, as evidenced by the arrival on the White Star-Dominion Line steamer of a family of 12 persons coming to this country to join three other members of the same family resident in Toronto.

The new citizens are the family of Hector Alexander, of Belfast, Ireland. They will settle at Kingsville, Ont.

Arriving by the same boat was a company of 20 youths from England, who are travelling to Alberta to take up farming, following an initial course of instruction in Canadian methods.

## Sugar For Brains

One of the scientists says there is brain food enough in a lump of sugar to produce the plays of Shakespeare, but suppling playwrights, before buying sugar, should note that he adds it must feed a brain like Shakespeare's.

—Boston Transcript.

## No Fear Of Brain Fog

Continuous Mental Activity Over Long Periods Is Not Harmful

As a bill to mental surgery, Sir Arthur Keith, eminent surgeon, speaking on a subject of the brain, indicates that the human brain is very tough, that study to the utmost limit of endurance never injures it. This observation seems part and parcel of the familiar assurance, to shame students, that "hard work never killed anybody." But the hardest physical work, it is fairly well established, does not. Dr. Raymond Pearl has studied to prove that even coal heavers and longshoremen the young Indian workers last longer, escaping extreme physical wear and tear. The point the British surgeon makes is that you may overtax physical endurance, or damage the body by neglecting exercise, but cannot use your brain enough to damage it.

The brain is a specially used implement, it is true. William James was certain that the average person barely tapped his store of mental energy. That continues mental activity over long stretches is not harmful. The sleepless tales have indicated. The mind is a wonderful long-distance runner. Granted, however, that no student would have the slightest fear of excessive cerebration, he is still at a loss to cure mental paralysis, if it comes. He would be better advised to an intellectual spendthrift if he could. Sir Arthur Keith's remark, "You will never succeed in using the brain up to full capacity," is an encouraging one.

Some men, obviously, have done so. Dr. Stenmetz, for example, seemed almost a mild dissipated, his brain was a wonderful tool. The most brilliant logist know well enough, or believe they do, that their brains have a vast store of unloosed energy, but they cannot get it to any locksmith who can supply the key—New York Herald-Tribune.

## Relics Of Mount Builders

Eight Skeletons Of Men Of Ancient Race Found Buried on Indiana Farm

Eight skeletons, one of them clad in copper armor, and a hoard of rare weapons and bits of personal adornment have been found in a mysterious mound on the farm of Grovo Voshburg, near Warsaw, Indiana.

Voshburg, 70-year-old farmer, had long desired to know the secret of the mound. According to local tradition, dates back hundreds of years. He secretly excavated the pile of earth, came upon a strange burial place. The eight skeletons lay in circular formation, arranged like the spokes of a wheel, with skulls together. Copper ornaments, bands and other bits of armor adorned the "skeletons of men, who apparently had been of giant stature. Indeed, this is the skull was a beautifully chipped flint arrowhead.

The soft earth of the mound revealed other treasures. Three points of ore, believed to be either silver or white gold, with the bones. "There were corroded copper bands, which antiquarians here believe were used to bind war clubs. Two pipe bowls, one of smooth black stone and the other carved with the replica of a fantastic monster, were found.

The belief that the bones are not those of Indians, but belong to the ancient and little known race of mound builders, has arisen, due to the great size of the bones, and the fact that skull formations are not those of Indian types. The skulls seem to have little forehead, and the eye cavities are high in the head.

## Care Of Infants

Ways Women Do Not Know How To Feed Babies

"To my mind, one of Canada's greatest needs is the fact that her women do not know how to feed babies, and it is to show the absolute importance of bringing up the baby in the country under the most hygienic methods, so as to ensure an efficient physical development, that the Red Cross is concentrating largely on the problem in its peace time programme," announced Dr. James Wilson Ross, of the Red Cross, at the Dominion executive of the Canadian Red Cross organization, who was the guest of honor at a dinner given by the Winnipeg branch of the society.

## Leithridge Irrigation District

About 600 hundred farmers have taken land in the Leithridge Irrigation district this year. Approximately 60,000 acres in Idaho are now under crop in the irrigation district under the old estimate for 1922.

There are more than 100 irrigation spots in New York. On one corner on the East Side a news dealer handles 28 newspapers, each printed in a different language.

## Tics That Bind British Empire

Unity Should Be the Creed of British People Everywhere

The possibilities, the greatness and the size of the British Empire were dealt with by Sir Frederick Dutton, of London, Eng., vice-president of the Royal Colonial Institute, before a joint meeting of the Canadian Club and the Women's Canadian Club at Ottawa. The empire was such a one as to never before bound so closely and never would again, should it be disrupted, he said.

The policy of the empire since the days of the Great War had been a puzzle to all foreign nations. Germany had puzzled over it and had arrived at an estimate which events had proven decidedly wrong. Germany's rulers and people had looked over events within the empire and had decided their time was ripe; that the British empire was ready, and in many quarters willing, to fall apart. Germany had decided war, not about the disintegration of the empire.

The main reason for the formation of the Royal Colonial Institute had been to bring the various constituent parts of the far-flung empire, and to maintain unity. The policy of the empire and the unity of the empire should be the creed of British people everywhere," said the speaker. On that, propriety of every part of the empire depended. That was his main message to the people of the British empire, no matter where they lived.

The policy of the empire of danger in the belief that all sections of the empire should have equal voice in the government. That, all parts were equal. There was no one dominant population. New Zealand, with its million and a quarter people could not expect an equal voice with the Mother Country's forty-five million. The protection of the trade routes had been the chief reason in recent years, especially in the case of the Suez Canal, that there was causing trouble on this account at present.

## Was Hardly Qualified

One U. S. Ambassador To Turkey Knew Little About Turkey

Secretary Kellogg, consulted on a diplomatic assignment, said recently to a group of newspaper editors: "Our ambassadors deserve most of their credit of their diplomatic successes. They are our voice with the world. They know down to the ground the people they serve among. But it is hard to find a man who is not a millionaire who, having contributed \$60,000 to the campaign fund of his party, was rewarded with the appointment of ambassador to Turkey."

"There's a story about a millionaire who, having contributed \$60,000 to the campaign fund of his party, was rewarded with the appointment of ambassador to Turkey. "There's a story about a millionaire who, having contributed \$60,000 to the campaign fund of his party, was rewarded with the appointment of ambassador to Turkey."

## Modern Machinery Is Speedy

Makers of Shot Turn Out Half Million a Minute

Many men have made fortunes because of their close observation of natural laws.

For instance, a Britisher in the eighteenth century, after noticing that rain drops and hail stones were round, conceived the idea that if he could drop molten lead from a distance it would round before it hit the ground.

The experiment was tried out and Watts is said to have made a fortune in the manufacture of shot.

Modern machinery now enables makers to turn out a half million shot a minute.

The new lead is lifted through a screen with meshes of the size desired, and permitted to fall 200 feet.

"A vat of water at the foot of the tower" catches the pellets, cooling them. The pellets are dried and passed through a sifter. Finally they are put into a revolving box of lead, which gives them the finished round touch and polish.

## See Great Culture For West

General Sir Arthur Currie, president of McGill University, passed through Winnipeg recently enroute to Vancouver to attend the annual meeting of the University of British Columbia.

Commenting on conditions in the West, General Currie said he decided a great future for the west, declaring the agriculturists now were carrying on operations under the most up-to-date and scientific methods.

## Big Game Prospects Look Good This Season

Country adjoining Jack Fish River on the east has, according to Mr. Ripley, the largest supply of moose, deer and black bear in Ontario. Bear Paw Lake and Lake of the Woods, slightly northeast of Nipigon, both managed are the habitat of moose in plenty. The same territory shows many signs of caribou, and black bears have been seen every day during the fishing season. Caribou is excellent for them in this region.

On the east where Lake Poly contains Helen Lake.

Moose are also in numbers three miles west of Bear Creek where it takes its origin at the spout of Bear Lake. During a trip in August he often saw from 10 to 20 moose in the water. One was seen every day during the fishing season. Caribou is excellent for them in this region.

# Most Northerly Radio Station Now Keeps Arctic Circle In Daily Touch With Civilization

The Arctic circle is now in daily touch with civilization, through the formal opening of the public by the department of interior and department of national defense, of the most northerly commercial radio station in Canada. This station is located at Akivik, at the mouth of the Mackenzie River, and lies 1,200 miles north of Edmonton and 125 miles beyond the Arctic circle.

The new station, in conjunction with others in the north, will supply a communication service for the Northwest Arctic and the Mackenzie basin, and will undoubtedly, it is stated, prove of great value to the many trading and transportation companies operating in that district.

The country, it is pointed out, is very rich in furs, the yearly export running into many hundreds of thousands of dollars. There are also oil reserves of rich mineral deposits, but this resource has yet to be developed. The oil wells at Fort Norman, 300 miles south of Akivik, are already being developed. It is especially stated, and fuel oil and gasoline can be locally obtained practically within the Arctic circle.

The opening of the Akivik station and the previous opening of the Fort Smith station on Sept. 5 marks the completion of the development work on the western portion of the project. The northern extension of the project is much less advanced, but it is believed that the equipment of Akivik station was lost when the Lady MacKenzie, of the Hudson's Bay Company fleet, sank off Point Barrow in August, 1921. The completion of the Fort Smith station, it is pointed out, had, therefore, to be postponed for a year until new equipment and stores could be shipped in down the Mackenzie River this summer.

## Going Back To Grain Predicts U. S. Cattle Lands Will Be Planted In Wheat

Ten million acres of red in the southwest, hereafter used for cattle raising, will be planted in wheat within the next eight years, C. C. Isely, of Dodge City, Kansas, predicted in an address at the 29th annual convention of the Great Western National Association, held at Denver, Colo., Sept. 10.

Mr. Isely's prediction was based on the fact that the land is now being used for cattle raising, and that the cattle industry is now being developed. He predicted that the land will be planted in wheat within the next eight years, and that the cattle industry will be developed.

This is the first year the United States has been on a "cattle" basis," he said. "The first year the wheat that has benefited the crop."

## No Crop Failures

Stated That There Was No Crop Failure In The Northwest  
Not only crop failure in the province of Manitoba, but the report of the provincial department of agriculture showed that the crop was satisfactory and a generally optimistic view prevailed. Ninety per cent. of the crop is threshed in the Red River valley and as far west as Portage la Prairie, and other farm work well in hand. Average per acre from 10 reports on alfalfa seed yielding 18.12 bushels, oats, 44 bushels; barley, 22 bushels; flax, 12 bushels; rye, 12 bushels. These are higher in every case than final averages for the 10 past years.

Potatoes yielded a good crop. Pumpkins are better than in years. Ploughing is nearly started. Stock is in good condition. The dairy industry shows increase of butter output last year.

## Clock 700 Years Old

On the Wells Cathedral in London is a clock, constructed by a monk from primitive material and with primitive tools some 700 years ago, but which still is in faultless condition. Besides giving the hour, the clock records the quarters of the moon and the stroke of the hour a group of medieval figures beat into life and whirl round until the last cuckoo dies away.

## Earth Has Growing Pains

A tremulous earth makes a young one, explains Prof. Charles W. Brown, geologist of Brown University, Providence. The series of earthquakes on the Atlantic and Pacific coasts this year are mere evidence of "growing pains," he says in Popular Science Monthly. When the earth finally gets adjusted and settled in old age, there will be no more quakes.

## Electric Ship Transports Grain

Carries 70,000 Bushels of Barley From Duluth to Montreal

Montreal placed another notch on its history today when the Twin Cities, the first electric-driven ship on the great port of Montreal, left after minding 70,000 bushels of barley.

The Twin Cities, owned by the Minnesota-Montreal Transport Company, came from Duluth. Her gross tonnage is 1,400 tons and she is capable of carrying 100 tons on a fourteen-foot draft.

The boat, which gave the appearance of a dismantled ship, is entirely electrically driven. She is controlled from the wheelhouse. Her engines are the Diesel electric type, and one of the features of the ship, that is also propelled by twin rudders and twin screws, both of which are controlled from the wheelhouse.

When coming through the canal the masts, davits and wheelhouse were brought down to gunwale level to permit the boat to pass under the suspension bridge in the canal.

Capt. Martin Peterson, in charge of the boat and crew, said, on the trip from New York to Wallaceton, Ont. to Detroit and back to New York thirty tons of grain were carried.

All of her appointments are of the electric type. Her galley, for instance, is electrically operated; and the heating apparatus for 400 tons of ice, which is used to keep the cargo fresh, is also electrically refrigerated.

She expects to maintain a regular schedule for 400 tons of ice, which is used to keep the cargo fresh, is also electrically refrigerated.

She expects to maintain a regular schedule for 400 tons of ice, which is used to keep the cargo fresh, is also electrically refrigerated.

## Indian Lookout Used By Forestry Service

California Rangers Keep Watch In Pine Trees 200 Feet High

An Indian lookout in the form of a wooden pine tree, in the vicinity of Lake Arrowhead, Cal., is one of the valuable aids to the United States forest service. The lookout, which is 200 feet high, is used by the Indian rangers to keep watch in the pine trees.

## Canada a Beautiful Country

New Resident of Alberta is Pleased With Its Attractiveness

Visitors and new settlers in Canada are impressed, not only with the opportunities which the country offers, but with its beauty and attractiveness. One such new resident now living in Alberta writes a Canadian agent as follows:

"As you are familiar with this season of the year in Western Canada, I do not need to tell you how beautiful it is, but I am sure you do not know this."

"This year is very favorable to farming, and the thing gives a great pleasure, and satisfaction to all. I am greatly enjoying it."

Average temperature of the Canal zone is 79 degrees.

## Captain R. G. Latta

Has Been Found In South Africa Which Can Run Faster than a Horse

The record for the longest of grain cars at the port of Fort William, Port Arthur, was (wise broken) last week ended October 5, first on the 21st September, when the highest record hitherto made, which on November 6, was followed by 61 cars, and on October 22 was beaten by 63 cars. The number of cars unloaded on the latter day was 2,441-4,923, 213 cars being unloaded.

Establishing what is easily a world record for movement of wheat, grain loaded into Fort William and Port Arthur elevators at the rate of nearly thirty bushels a second for the whole of the twenty-four hours at October 22, the "Canadian Pacific Railway" cars. In all 1,701 cars were unloaded during the day and each car carries an average load of 1,600 bushels, representing a total of 2,556,000 bushels.

## Atropians For Women

A dainty little aeroplane designed especially to appeal to feminine tastes has appeared in the London market. It is a small, light, and easy to handle, and is built, the manufacturer says, "for the woman only."

The Royal Aero Club of Great Britain has granted flying certificates to seven women.

Most of our common sayings are very old, and doubtless "You can't have your cake and eat it too" was coined by the whale.

## Wheat Bait To Move North

Discovery of "Garnier" Wheat Will Discourage Great Areas

It is reported that the new wheat called the Garnier may push the wheat of the west farther north. The new wheat is said to be most resistant and it also stands against it by it. L. H. Newman, cereal specialist of the Canadian Government, says that the new wheat will be a rival of the famous Marquis wheat, now the popular wheat in Canada, and among the majority of American wheat growers.

Claims advanced by the Canadian official for this new wheat are that it is a much heavier yielder than the Marquis, under any condition producing almost twice the crop, and that it ripens from a week to ten days earlier than the Marquis, which enables it to escape the possibilities of rust and early frosts.

The wheat has been distributed through Canada for further tests. If it continues to justify its early claims, the rust problem will be reduced to a minimum. This post season losses of millions of dollars and wheat growers are anxiously awaiting the results of the tests with the new grain.—Montreal Witness.

## Manitoba Sugar Beets

Plots Grown For Experimental Purpose in Eastern and Southern Part of Province

The analysis of sugar beets grown on experimental plots in Manitoba has commenced and will continue for the next month, according to the secretary of the Manitoba Sugar Company. These beets, grown on a purely experimental basis, have been planted for the purpose of testing the quality of the beets, and the results of the analysis will be made known to the public.

The results of the analysis will be made known to the public. The results of the analysis will be made known to the public.

## Increased Cuck Production

Ontario Holds First Place By a Wide Margin

Gold production in Canada in the first half year in 1922 reached a new record of 33,405 ounces, worth \$7,137,480, as compared with 20,754 ounces worth \$4,673,711 in the same period last year. Ontario continued to hold a big lead with 70,714 ounces, worth \$15,473,711 in the same period last year.

# Utilization of Straw For The Manufacture of Paper May Mean Much To Western Farmer

## Fitting Unemployed For Overseas Work

Further Outlets of Scheme Promoted by British Government

Further particulars are now available of the scheme promoted by the British government for providing training for young unemployed men which will be calculated to fit them for farm work. One of the four residential training centers will be at Clayton, near Ipswich, and those accepted will be trained either for farm work in England or overseas. A start will be made with about 1,200 men of whom 200 will be slated for overseas.

Applicants for training with a view to employment overseas must be: (a) Provisionally approved by a representative of the Dominion authority, and must be entering training; (b) undertaking to remain throughout the course, and as soon as possible thereafter, to proceed to the Dominion concerned, if finally approved for employment.

(c) Single men between the ages of 19 and 25. In the case of men who served with the forces during the Great War the upper age limit may be raised to the extent of six months, up to the age of 29.

Skilled men who have had no opportunity of learning a skilled trade (d) Must not have received a course of instruction in public assistance or kindred assistance from the civil liberties or King's funds.

The present nature of the course of training for overseas employment may be varied from time to time, but it is intended, generally, to give training in the handling of horses, and in the handling of ploughing and care of live stock, elementary repairs to harness, and so on.

(e) Elementary wood working, the use of simple wood-working tools such as plane, chisel, saw, cross-cut, nail, edge, and awl, and mill-work.

(f) The erection and repair of wire fencing and wooden buildings, and the use of tools.

(g) Timber work, and (h) Simple repairs to farm implements.

## An Opportunity For Canada

Farmers Could Work Up Big Chilled Meat Export Trade

More and more it is becoming apparent that Canadian farmers should be turned to the formation of a big chilled meat export trade and this in spite of no special assistance from the Dominion Government. He made it clear to speak on the subject is Secretary-Treasurer McLean, of the Manitoba Cattle Raisers' Association. He said that Canada has the natural endowment necessary to become the chief export source of beef to Great Britain, but that he can see no reason why the Canadian farmer should not export his chilled meat to Great Britain, and that he can see no reason why the Canadian farmer should not export his chilled meat to Great Britain.

He said that Canada has the natural endowment necessary to become the chief export source of beef to Great Britain, but that he can see no reason why the Canadian farmer should not export his chilled meat to Great Britain.

He said that Canada has the natural endowment necessary to become the chief export source of beef to Great Britain, but that he can see no reason why the Canadian farmer should not export his chilled meat to Great Britain.

And the future of the paper industry, indeed, the future of the whole trade of printing, causes periodical with other evils in the distribution of paper material from wood. The United States has become the greatest source of paper in the world, and as its own soft wood supply have nearly exhausted it has come to depend largely upon Canada to draw more and more upon Canadian forests.

Not long ago the London Morning Post published an issue on paper made from straw, and the unqualified success seems to have definitely lifted the question from theory to practice. The trouble experienced in the past, as stated, has been with the brittleness of the paper, but ten years' experience have overcome this difficulty. This De Vane process, as it is known, has been perfected in Canada, and according to the same paper, the work is now continued on a large scale in Canada.

For some considerable time experts have been working on the manufacture of paper from straw, and the United States has been the leader in the utilization of straw for the manufacture of pulp for conversion into high quality paper.

More recent tests have been made with wheat, oat and other straws under the supervision of the Dominion, and it is now being used in the manufacture of paper in the Dominion.

It would be inevitable that sooner or later straw will become a raw material in the manufacture of paper. This means a gigantic industry for Canada and would mean the possibility of any danger of a loss of supremacy in the newspaper industry through dependence upon foreign supplies.

In addition, mean the utilization of an enormous by-product of the straw trade, and it is estimated that 7,000,000 tons of straw are burned annually in the Dominion.

Canada has a large supply of straw, and it is estimated that 7,000,000 tons of straw are burned annually in the Dominion.

## About Town and Country

The Ladies' Aid of the United Church, will serve a fowl supper in the Masonic Building, Oyen, on Thursday, October 29. Adults 50 cents, children 25 cents. Serving will commence at 5 p.m.

Lanfne W.I. will serve a chicken supper and afterwards give a dance on Friday, October 30.

Gortrude Clough, who is attending normal school at Calgary, was knocked down with a girl companion, by a motor truck in Calgary last Friday. The girls were taken to the General Hospital for treatment where it was found that their injuries were not as serious as first thought. Miss Clough is suffering from body bruises and shock.

The Ladies' Aid of the United Church will hold a bazaar on Saturday, November 28, in the Masonic Building, commencing at 2 p.m. Afternoon tea will be served.

Charles Stewart, A. M. Mr. Quarrie and S. A. Miller left this morning for Drumheller to attend a District Meeting of Grand Lodge, A.F. and A.M.

### Worthy Grand Matron Visits Somme Chapter, O.E.S.

Mrs. Beaubier, Worthy Grand Matron of Alberta, O.E.S., paid an official visit to Somme Chapter, O.E.S., Oyen last Thursday. During her stay here she was the guest of Mr. and Mrs. R.E. Gillespie. An afternoon social was held in her honor, at the Gillespie home, and after the evening session in the lodge room, a banquet was served.

### Canadian Apples For The Old Country

The crop of Canadian apples this year is better than ever and what could be more delightful remembrance from this side to our friends across the seas than a box of hand picked and hand packed Canadian apples. Your apples can fill such orders and the Canadian National Express will transport and deliver by quick service, to any station in Great Britain or Ireland, from Montreal or Quebec up to November 15, and from Saint John, N.B. and Halifax, thereafter, at the rate of \$3.00 per standard box of apples not exceeding one cubic foot eight inches in measurement or fifty pounds in weight. Rate includes refrigeration on steam ships. Consult any Canadian National Express Agent as to further particulars.

### In Lighter Vein

"What did your wife say about you being out so late the other night?"

"Don't ask me yet. When she gets through with the subject, I'll condense it for you."

A barber reported to work two hours late in one of the city shops.

"What's the big idea?" demanded the irate boss.

"I'm sorry," replied the barber, "but while I was shaving I talked myself into a shampoo, haircut and massage."

Disconsolate One: "I wish I were dead!"

Consoler: "Why, can't you marry her—or did you?"

Al. Trewin commenced threshing for "Bill" Denton, on September 23 and finished on October 23, threshing 12,000 bushels of wheat and 2,000 bushels of oats. Wheat on breaking and summerfallow yielding 30 bushels per acre. A quarter-section of stubble, which was burned off last spring, went over 25 bushels per acre. Oats on summerfallow and stubble went over 60 bushels per acre.

The time taken in above threshing is no reflection on Mr. Trewin's outfit, but is evidence of the unusual weather conditions which have caused so many delays to threshing operations, this season.

C.P. Riel, of Prince Rupert, B.C. who was recently deposed of by the council and board of trade of that city, to investigate the possibilities of getting early routing of grain from the prairie provinces through the new terminal elevator at Prince Rupert, was in Oyen over the week end, visiting his father and mother Mr. and Mrs. C. Riel. Mr. C.P. Riel has been a resident of Prince Rupert for the past twelve years. The grain rate to Prince Rupert is the same as to the port of Vancouver, and the former port is 500 miles closer to the orient.

On Saturday, November 7, the first class in "Home Nursing" will be held at the United Church, Oyen, at 2:30 p.m., in charge of Mrs. W. V. Miller. This is the first of a series of 12 classes, which will be held every Saturday afternoon, at the same hour, until the course is completed. All ladies are cordially invited.
